ABOUT ME

- 
- Results-driven Senior Software Engineer with 11+ years of experience in **native Android (Java/Kotlin)** and **cross-platform Flutter** development, delivering scalable, high-performance solutions across **banking, fintech, e-commerce, and enterprise** domains. Proven expertise in **end-to-end project delivery** – from architecture and design to deployment and optimization. Key achievements include architecting the **Corporate Internet Banking** platform and the **CBQ Finance Trade Portal**, achieving **10M QAR in cost savings**, and developing mobile applications with **1M+ downloads**. Skilled in **mobile architecture, performance optimization, CI/CD, REST API integration, and Agile delivery**, with a strong record of delivering **mission-critical projects** under tight deadlines while ensuring exceptional user experiences.

WORK EXPERIENCE

- 
- SENIOR SOFTWARE ENGINEER | MAY 2023 - PRESENT**
COMMERCIAL BANK OF QATAR (VISMAYA CONTRACTOR), DOHA
 - Designed, architected, and delivered a next-generation Corporate Internet Banking (CIB) portal, enabling seamless access across mobile, tablet, laptop, and desktop with an intuitive UI and advanced corporate banking features.
 - Designed and delivered a complete in-house solution for CBQ's Finance Trade Portal (FTP), replacing a costly outsourced service.
 - Created and implemented a unified ticketing and complaint management system for POS and ATM operations, integrating both web and mobile platforms.
- 
- TECHNICAL LEAD ENGINEER | APR 2022 - JAN 2023**
KELLTON TECH, GURUGRAM
 - Developed and optimized the Adani One: Travel and Beyond app, contributing to its success in surpassing 1 million downloads by delivering a fast, reliable, and user-friendly travel experience.
 - Engineered core features for the Akbar Travels One: App, enabling seamless flight and hotel bookings and helping the app achieve 1 million+ downloads with improved stability and performance.
- 
- SENIOR MOBILE APPLICATION DEVELOPER | OCT 2020 - APR 2022**
SUBCODEVS, NOIDA
 - Developed various client apps across Android, Flutter, and Android TV platforms.
 - Implemented CI/CD with Fastlane for updating apps on POS systems.
 - Handled complete Play Store and App Store submission.
- 
- SENIOR ANDROID APP DEVELOPER | DEC 2015 - DEC 2020**
10TIMES.COM, NOIDA
 - Developed 10times - Find Events & Network, which has garnered over 100,000 downloads.
 - Transitioned to a new project focused on white-label event apps.
 - Created a library and automated processes for app creation and publication.
- 
- INTERN AND ANDROID APP DEVELOPER | JUL 2014 - DEC 2015**
MIXORG, NOIDA
 - Interned and subsequently joined as an Android app developer.
 - Developed 4 apps within a team of 4 individuals.
 - Created a 2D mobile game.
